SUMMARY

- Highly motivated and result driven Engineer with a passion for business processes through data driven technologies.
- Excels in providing exceptional service using various skill sets in mechatronics, data analytics and Cloud technology.
- Committed to adding value through effective communication, problem solving, team effort and leadership abilities.

EDUCATION

Enugu State University of Science and Technology – Enugu, Nigeria

January 2008 – December 2013

B.Eng. Chemical Engineering

WORK EXPERIENCE

Shift Maintenance Officer

September 2024 - Date

Chivita Hollandia – Lagos, Nigeria

- Designed and produced planned maintenance schedule and process documentation. This reduced overall production cost by a margin of 30%. This eventually led to timely replacement of spares as a result of improved machine efficiency.
- Led teams in the successful installation and commissioning of various food processing and packaging machines.

Technical Officer

November 2023 - Date

Westeserve – Lagos, Nigeria

- Led the project for the design of Westeserve landing page. This entails the ecommerce store, the backend backup and migration of the entire site to another hosting provider.
- Led cross-functional teams. Delegated installation tasks effectively across multiple locations.

Assistant Engineering Manager

January 2020 - November 2023

Garment Care – Lagos, Nigeria

- Reduced turnaround time for breakdowns to 40% by implementing root cause identification strategies and enhancing daily record-keeping practices..
- Implemented robust electrical protection and safety frameworks to safeguard all electrical appliances under purview. This reduced costly equipment failure by 80%.

CERTIFICATIONS

COREN Certified 2021

Mechatronics IIT 2016

Tekedia MiniMBA 2022

AWS SAA (in View)

VOLUNTEER ACTIVITIES

Member: Carbon Capture, Utilisation and Storage (CCUS)

December 2012 - Present

Playing a significant role in advancing the global green energy transition through research, policy advocacy, capacity building, and public awareness. Over 45 countries have since benefitted from sound policies geared towards global green.

SKILLS

Data Science (Python, SQL, Jupyter Notebook)
